It's the size, the fight, & the pure adrenaline that keep anglers coming back to T&D Amisk Camp year after year. Thanks to responsible fisheries management, these healthy populations continue to thrive—ensuring an exceptional fishing experience for generations to come.

T&D Amisk Camp is located in a small bay on the south shore of Amisk Lake, near the mouth of the Sturgeon Weir River. Spanning over 430 square kilometers & dotted with over 500 islands, Amisk Lake is a low pressure paradise for anglers. Renowned for its incredible Walleye & Northern Pike fishing, this pristine lake offers the perfect habitat—with expansive shallow bays, rocky shoals, & fresh, flowing waters from the Sturgeon Weir River. Located in the heart of the Canadian Shield, the boreal forest & limestone rock formations provide the perfect backdrop to your epic fishing photos!

The majority of our guests are repeat visitors—many returning year after year to continue a tradition that spans generations of unforgettable fishing trips to T&D Amisk Camp.

Our drive-to camp offers 10 lakeview, light housekeeping cabins. Each is unique—accommodating 2 to 10 guests, making them ideal for couples, families, & groups.
